WORK EXPERIENCE

Associate Analyst — Maven Solutions Dec 2023 - Dec 2024
Kathmandu, Nepal

- Conducted QA testing across web and mobile applications, identifying bugs and verifying fixes across multiple product cycles.
- Supported the company's career and resume platform by refining content workflows and coordinating issue resolution across cross-functional teams.

PROJECTS

The NFRS Archive [Visit](#) Finance Reference Tool

- Free, searchable reference mapping every NFRS standard to its IFRS counterpart, with side-by-side treatment, carve-out analysis, worked examples, and paragraph citations.
- Covers 25 NAS and 17 NFRS standards; built for Nepali auditors and CA/ACCA students who previously relied on scattered PDFs.

PaisaTrack [Visit](#) Personal Finance Web App

- Built a fully client-side budget tracker using AES-256 local encryption; supports category-based budgets, transaction logging, and monthly income vs. expense reporting with no server or data sharing.
- Tailored for Nepali users with Rupee (NPR) support, Bikram Samwat calendar integration, and district-level location selection.

CERTIFICATIONS

Prompt Engineering [Visit](#) Aug 2023
Vanderbilt University · Coursera

- Built effective prompt applications across ChatGPT, Claude, and other AI systems with a focus on practical LLM use.

Commercial Banking Job Simulation [Visit](#) Sept 2023
J.P. Morgan Chase & Co.

- Completed modules on financial statement preparation, credit analysis fundamentals, and industry overview assessment.

Strategy Consulting Job Simulation [Visit](#) Sept 2023
Boston Consulting Group (BCG)

- Applied strategic thinking and consulting problem-solving frameworks to real-world business case scenarios.

Fundamentals of Digital Marketing [Visit](#) May 2022
Google

- Developed skills across SEO, social media marketing, and e-commerce performance analysis.
